

## Chile

With a length that exceeds 4,300 kilometers from north to south, the **Chilean** territory unites various extreme

g

**eographies**

,

**climates**

, and

**cultures**

. It is a land of contrasts that combines

**deserts**

,

**mountains**

,

**Mediterranean**

**landscapes**

,

**subtropical islands**

, vast open plains,

**ice fields**

,

**fjords**

,

**lakes**

,

**tundra-like**

areas, and

**glaciers**

an ideal combination of

**virgin nature**

, services and security.
