

Galapagos

Enjoy a once in a lifetime experience in the Magical **Galapagos Islands Archipelago** where you can explore all that these amazing islands have to offer. Located in the

Pacific Ocean

1000 km West of the

Ecuador

mainland, these pristine islands are today considered one of the most important natural history sites in the World. Each island is distinct, with its own

ecosystem

and

uniquely evolved flora and fauna

where 60% of the birds encountered can be found nowhere else in the World. We offer cruises in all the different categories as well as personalized land based tours. Experience the scenery,

wildlife

,

hiking

and

sailing tours

,

snorkeling

,

diving

and much more.
